

# Wiro bind Portfolio books

Sizes - **A sizes** = A6, A5, A4, A3    **Panoramic sizes** = 210mm x 105mm, 297mm x 127mm, 420mm x 185mm.

*(Bespoke sizes priced to nearest standard size)*

Portfolio books are made with white wiro spirals and come with frosted transparent front & back covers.

When setting up your book, it is recommended to have front and back cover designs and ensure to set up your artboards with **10mm margin** from the edge of the page, set up with **3mm bleed** all around, set to **300dpi high resolution** (high quality print) and export with **crop marks**.

Ensure to leave all important text and graphics at least 15mm away from the **left binding edge** (as seen in the image below) as this is where the holes for binding will be.

Any bespoke sizes must be set up with the same specifications outlined above, otherwise we will set your files up as best we can and will not be responsible for any trimming, positioning of text/artwork or hole punches when producing your book.

Holes will be approx  
15mm into the left  
bind edge of page.

Set up with 3mm  
bleed area.

Keep all text and  
graphics at least  
10mm inside of  
page. (15mm on left)
